DATE: _____

Oak Valley Hospital District

To: Finance Committee

From: Matt Heyn & Chang Ahn

Date: July 31, 2025

Subject: Hospital Operations – June 2025

Executive Summary

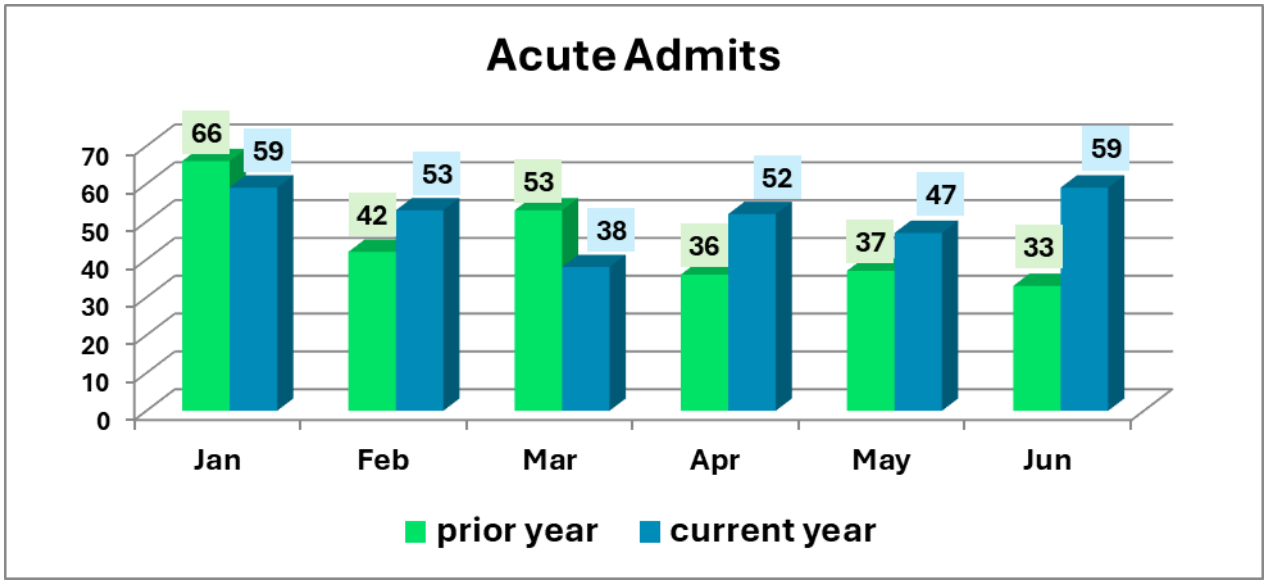

Gross revenue was strong in June, with patient revenue exceeding budget by 4.8%. June closed with the District posting a profit from operations before new hospital expenses of $636 thousand dollars. The profit from operations including new hospital expenses was $250 thousand dollars. The difference is the new hospital expenses of interest and depreciation.

As of the end of June, the year-to-date earnings before interest and depreciation (EBIDA), was 17.5%. Accounts receivable gross days increased from 57 days to 60 days, and days of cash on hand decreased from 132 to 127 days.

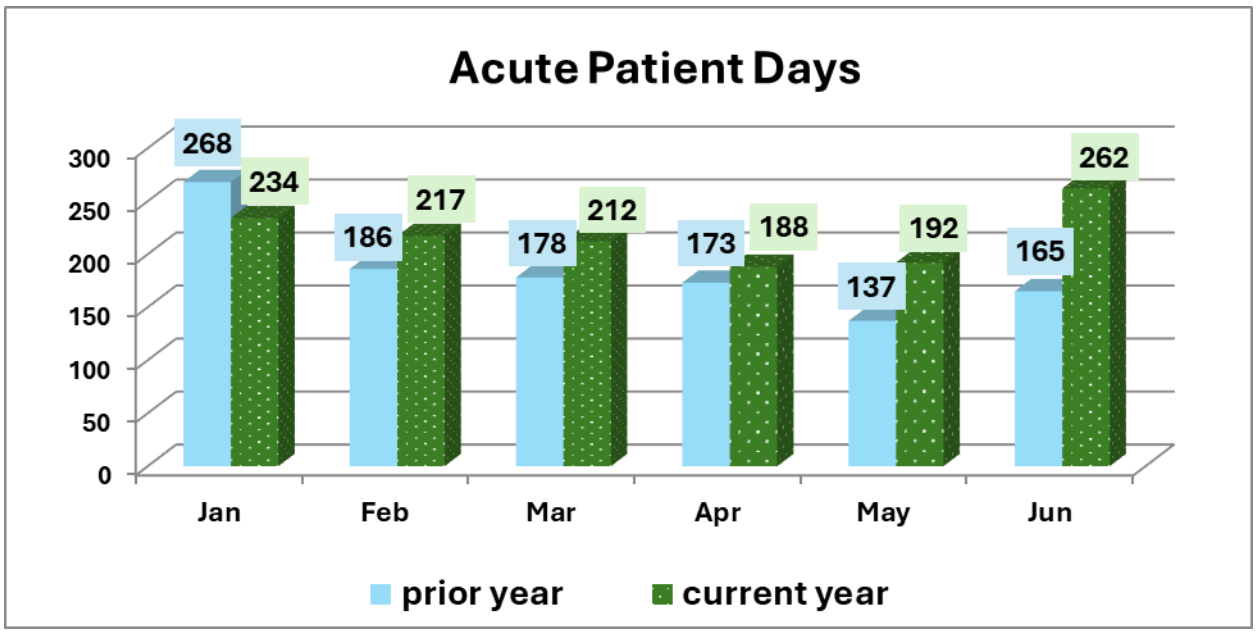

Income Statement

Acute Care Revenue:

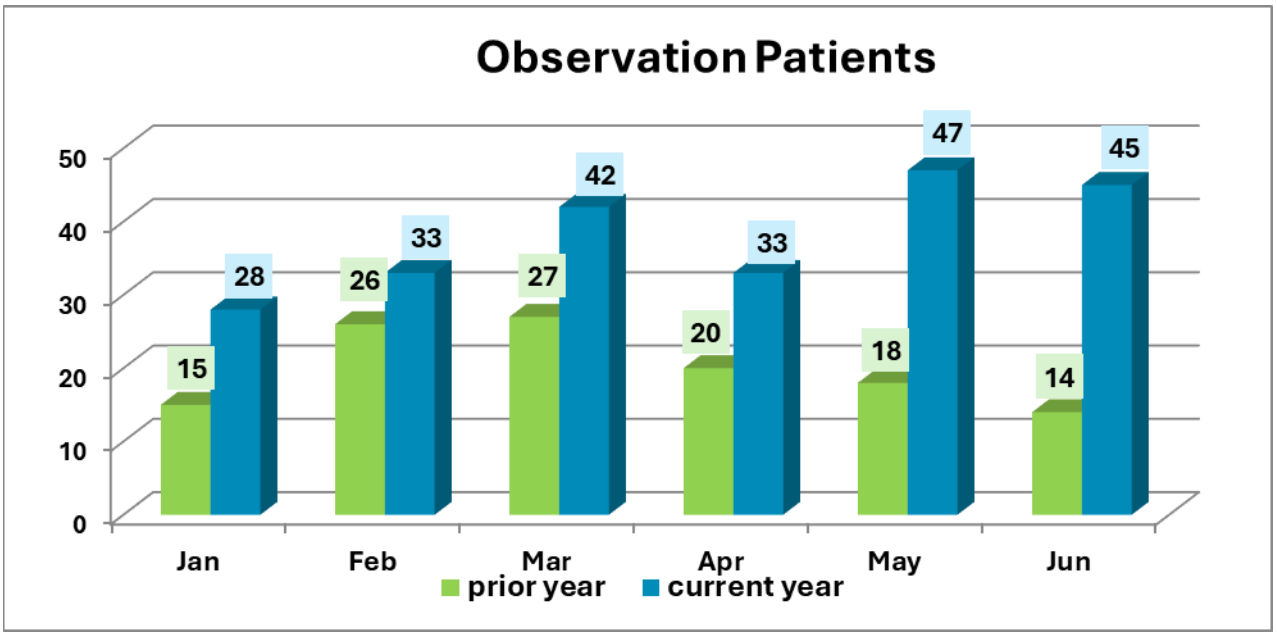

In June we had 59 acute care admits. Our budget for June was 39 acute care admits. The chart below shows a year-to-year comparison for the last six months.

Our acute care inpatient days were 262 in June, as compared to a budget of 169 days. The chart below shows a year-to-year comparison for the last six months.

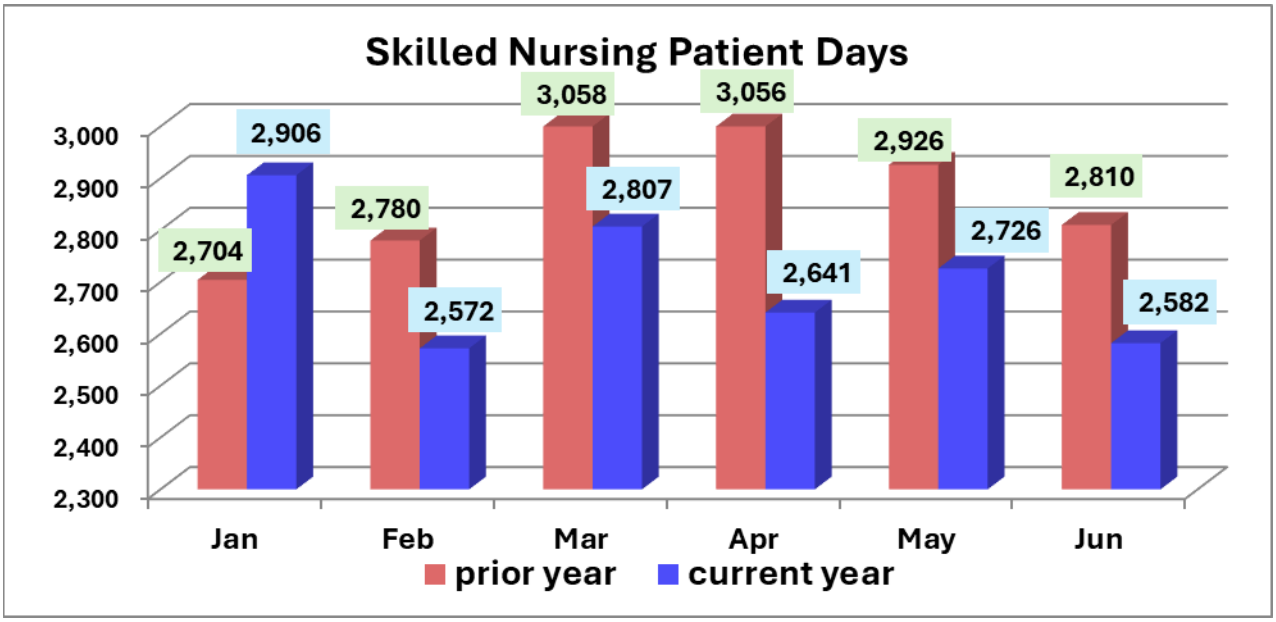

We also had 45 patients in June admitted to an observation status on the Med/Surg acute care unit, but they are considered outpatients as they are not sick enough to meet inpatient criteria. Even though the patients do not meet inpatient criteria, they still require significant staffing and other resources.

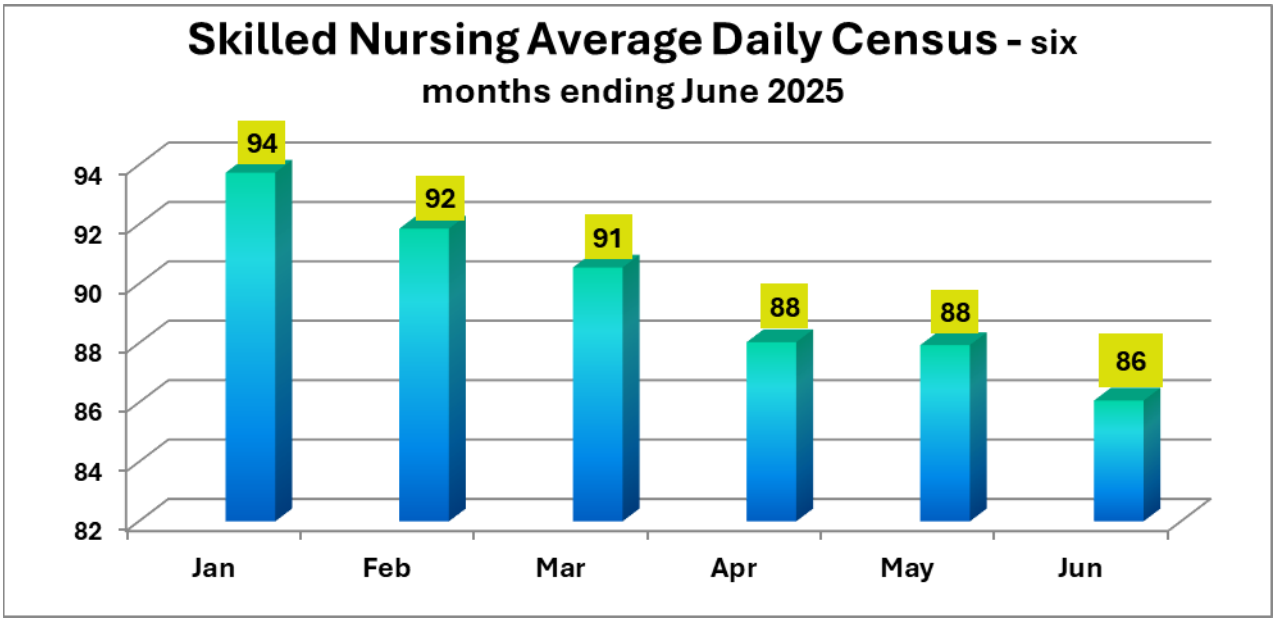

Skilled Nursing:

In skilled nursing, we had 2,582 resident (patient) days during June. The chart below shows a year-to-year comparison for the last six months.

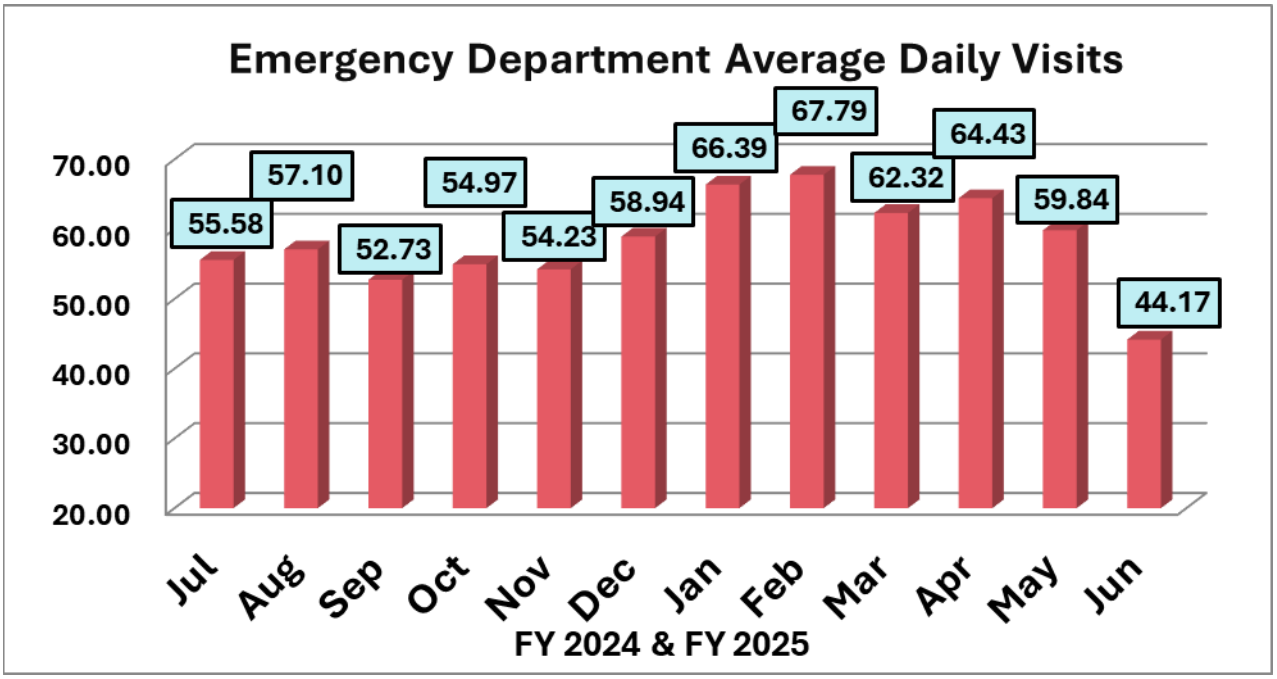

Our skilled nursing average daily census for June was 86, and we had 11 admits.

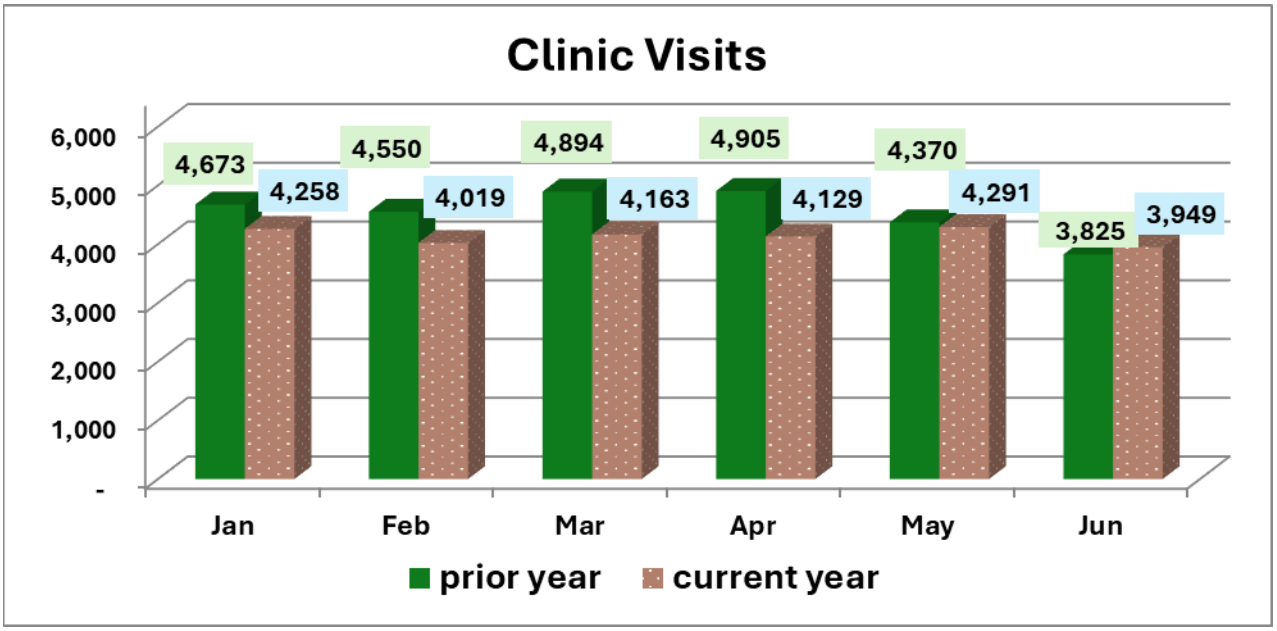

Outpatient Services

The emergency room averaged 44 daily visits in June. The graph below shows the average daily visits for the last twelve months.

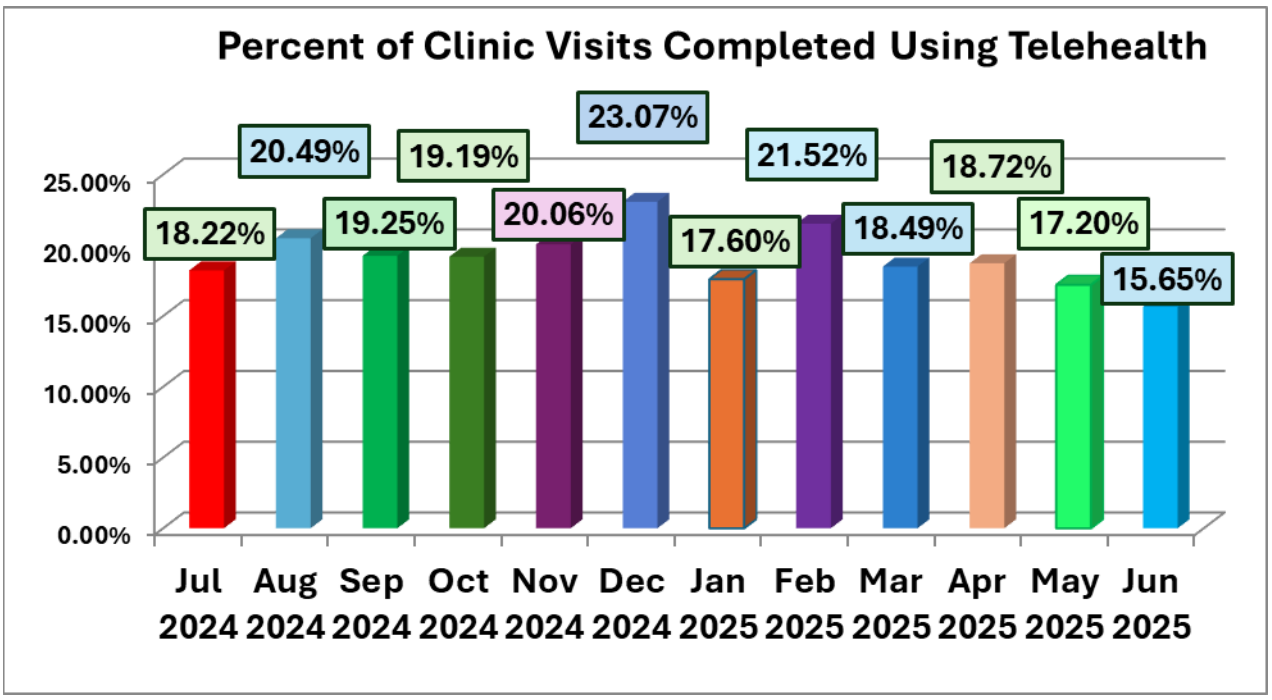

Clinic Services:

Clinic visits for all the clinics totaled 3,949 during June. The graph below shows the total number of clinic visits for the last six months with a comparison to the prior year.

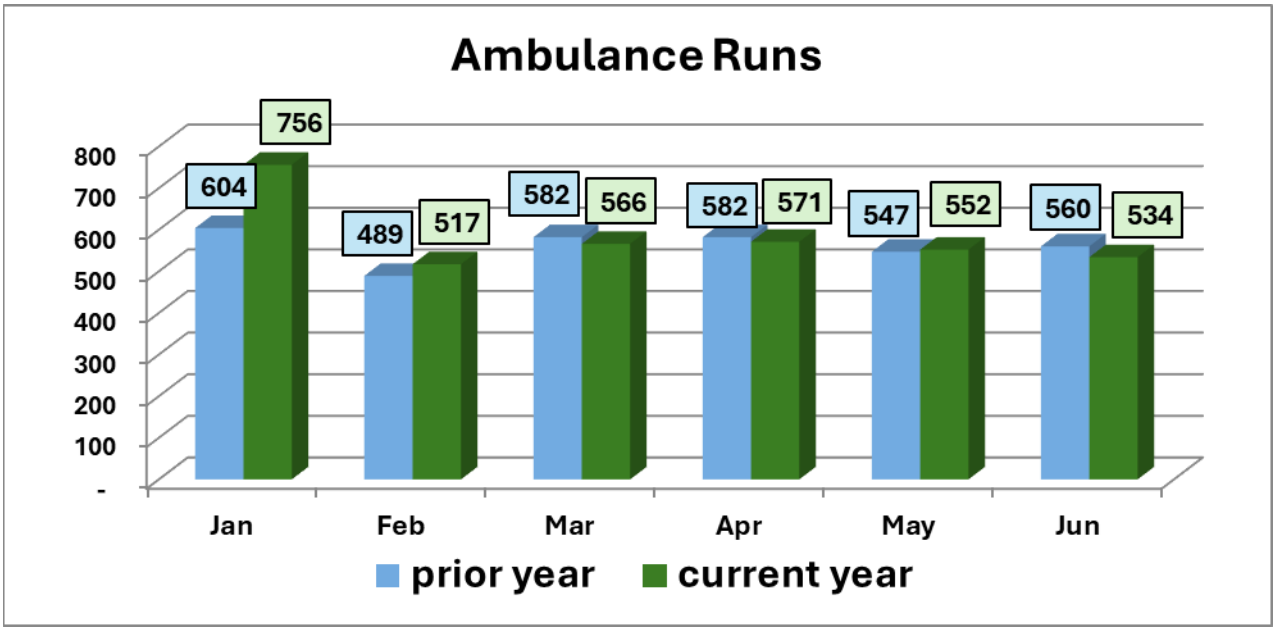

During June, telehealth visits comprised 16% of total clinic visits. Telehealth visits remain an excellent tool to see clinic patients that may not otherwise have access.

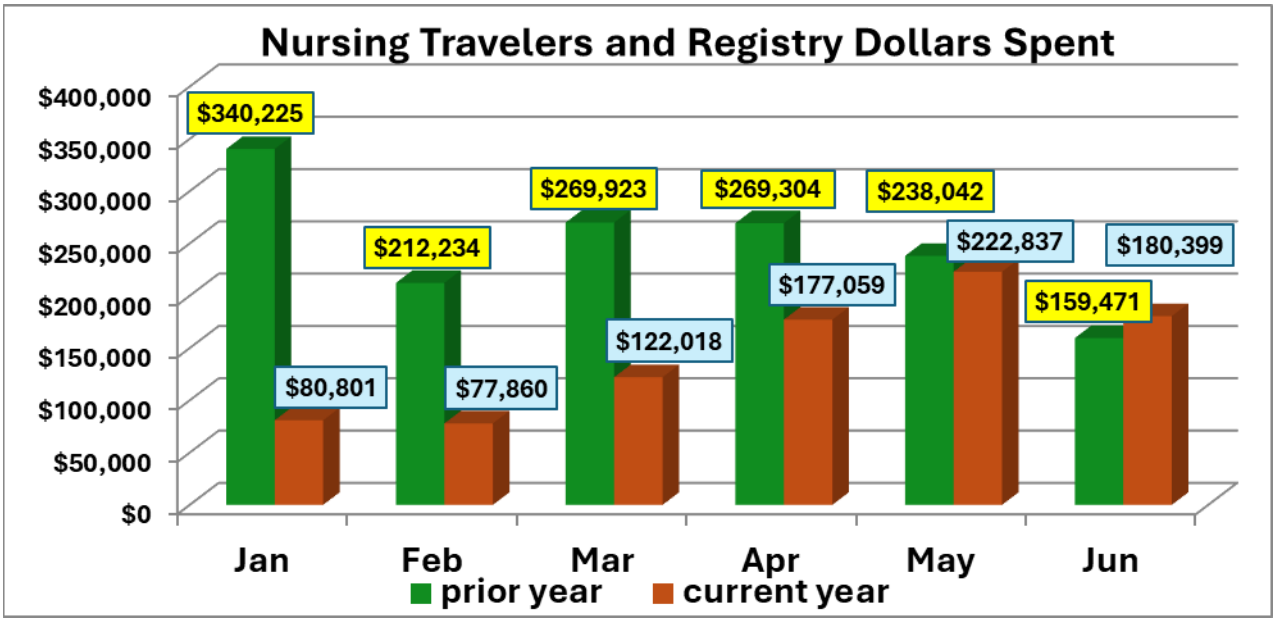

Ambulance Services:

Our ambulance services sector had 534 "runs" in June.

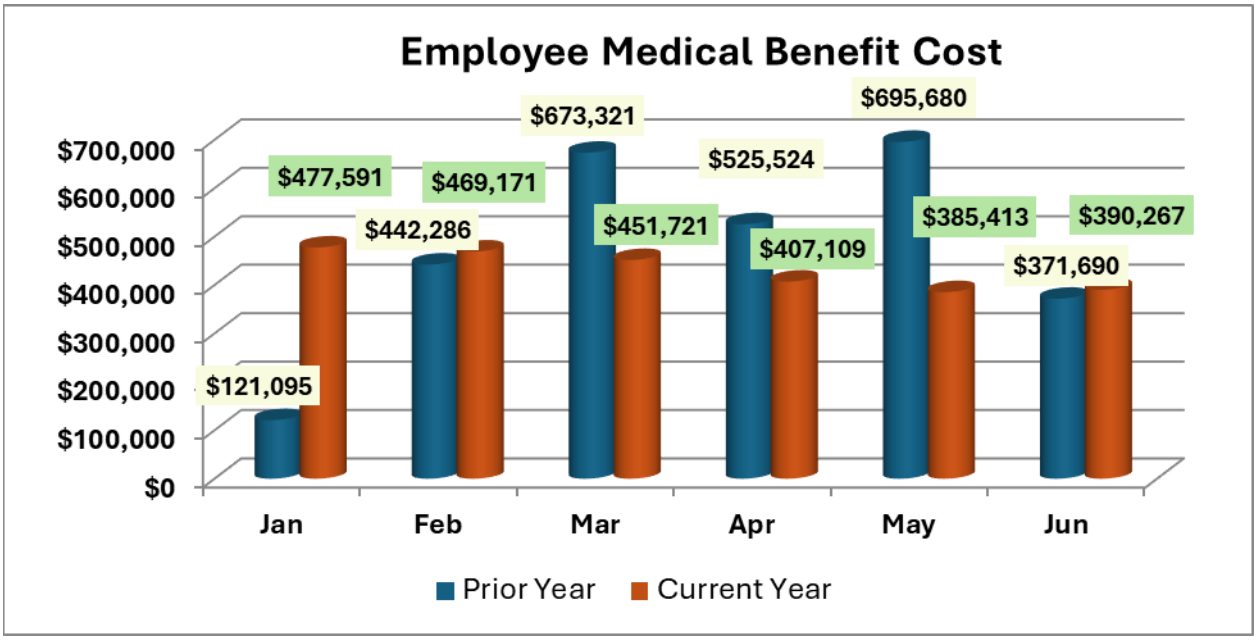

Expenses:

The nursing shortage continues to require the use of travelers. In June we incurred $180K in RN traveler costs. We currently have traveler RN's in the Emergency Department, but the majority are in the Med/Surg Department. With the recent increases approved for the Med/Surg RN rates we are hoping to further reduce RN Travelers.

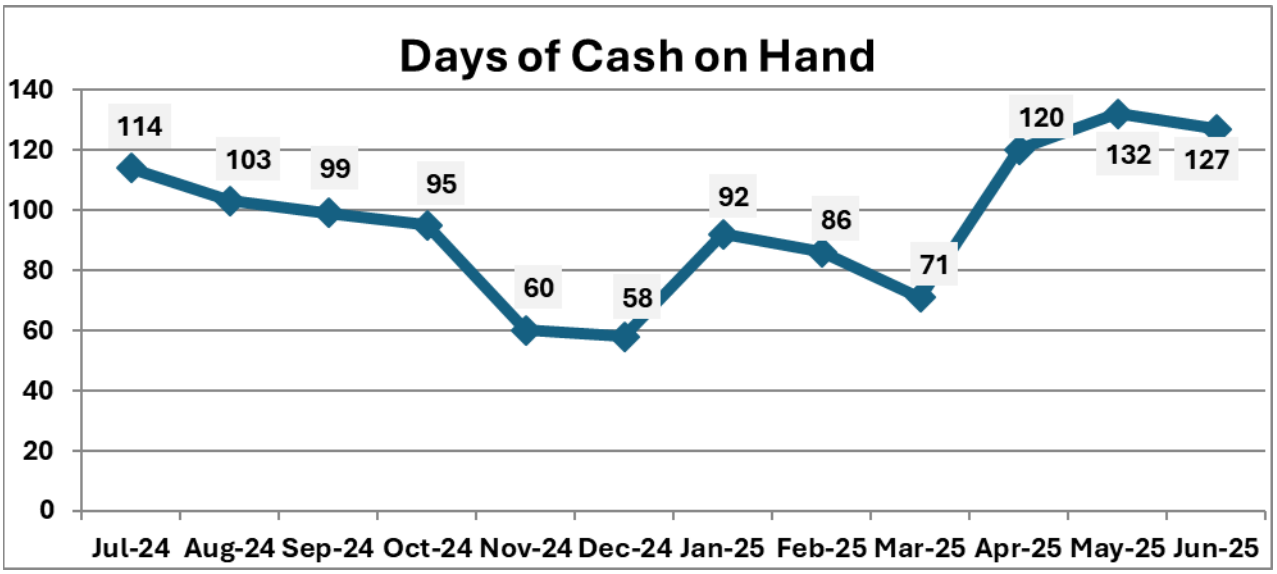

Our benefit package is a valuable tool for employee attraction and retention. In June we incurred $390K in health insurance costs for our employees and their dependents. Although these are high numbers, we remain 17% under our year-to-date budget.

Balance Sheet

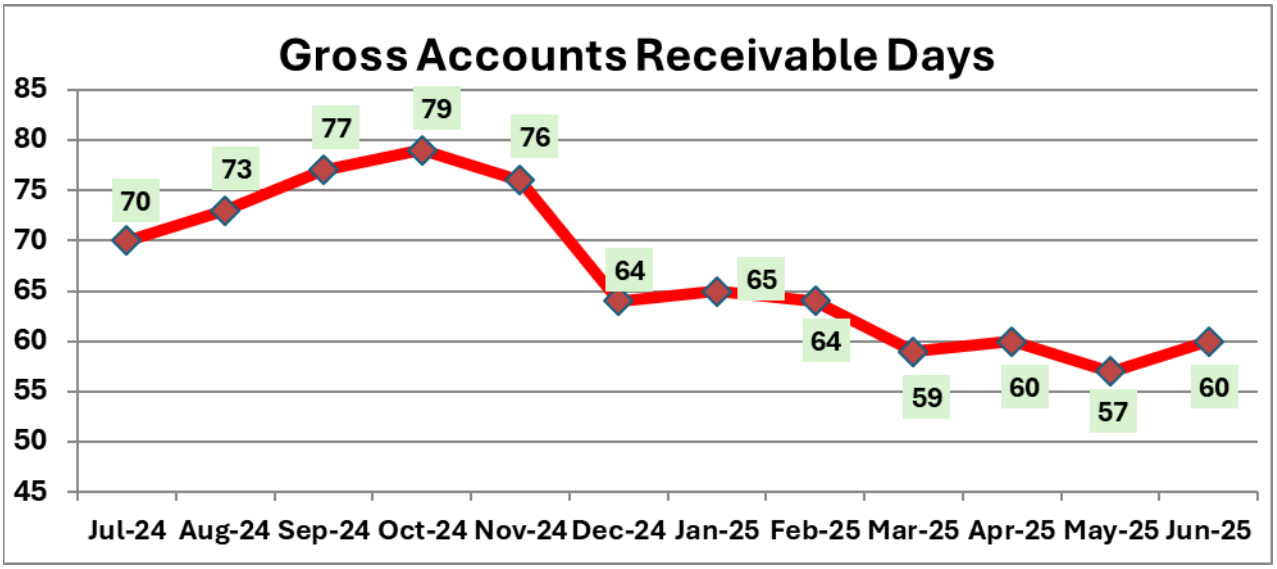

Days of Cash on Hand

Our days of cash on hand as of the end of June were at 127 days. The District continues to manage cash closely.

Accounts Receivable Gross Days

The gross accounts receivable days for the last twelve months are shown below. Gross days in accounts receivable increased by 3 day during June. We have identified several areas where we have made improvements to the billing and payment processing procedures. We started work with our revenue cycle consultants on March 3rd. They will help us identify further opportunities for improvement in the revenue cycle.
