Note 1. Description of the Plan

The following description of Herbalife International of America, Inc. Employees 401(k) Profit Sharing Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1985 to qualify as a defined contribution retirement plan for Herbalife International of America, Inc.'s (the "Company") eligible employees. The Plan was amended and restated effective October 1, 2009. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the "IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan after completing two months of service. There is no minimal age requirement to be a Plan participant. Entry dates are the first day of each quarter after the employee meets the eligibility requirements.

Contributions

Under the terms of the Plan, participating employees may contribute from 2% up to 75% of their annual compensation not to exceed the amount allowable under federal limitations. Participants may also rollover amounts representing distributions from other qualified retirement or profit sharing plans.

The Company makes a qualified automatic contribution arrangement ("QACA") matching contribution which qualifies as a "safe harbor" contribution. For the year ended December 31, 2010 the Company made a QACA matching contribution of 100% of elective deferrals on the first 1% of deferred compensation and 50% of elective deferrals that exceed 1% of deferred compensation up to 6% of deferred compensation.

The Company may also make a "non safe harbor" matching contribution and a profit sharing contribution at the discretion of the Company.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's qualified matching contributions, (b) the Company's discretionary contributions and (c) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of Company discretionary contributions are allocated to participants who are active participants on the last day of the Plan year. Company discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their elective contributions and earnings on such contributions. Vesting in the QACA matching contributions and related earnings is based on years of continuous service according to the following schedule:

Years of Service for Vesting	Percent Vested
Less than two years of service	0%
Two years or more of service	100%

Vesting in the employer discretionary contributions and related earnings is based on years of continuous service according to the following schedule:

Years of Service for Vesting	Percent Vested
Less than one year of service	0%
At least one but less than two years of service	20%
At least two but less than three years of service	40%
At least three but less than four years of service	60%
At least four years but less than five years of service	80%
Five years or more of service	100%

Safe Harbor Election

Effective January 1, 2003, the Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and investing schedules and meet the applicable "Safe Harbor" requirement. If the Plan meets the "Safe Harbor" requirements it is not subject to the ADP or ACP discrimination tests required by the IRC.

Note 1. Description of the Plan (continued)

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their employer matching contribution and earnings on such contributions are used to reduce the Company matching contributions. As of December 31, 2010 and 2009, there were approximately $211,400 and $192,400, of unallocated forfeited non-vested accounts that were available, respectively. Forfeitures of approximately $116,000 were used in 2011 to pay the employer matching contribution relating to the "true-up" provisions for the year ended December 31, 2010.

Payment of Benefits

Plan benefits are distributed in a lump sum upon the older of normal retirement age of 65 or up to five years after the first day of the Plan year in which his earliest Entry Date occurred, death or total disability prior to retirement. Upon termination of employment by reason other than retirement, death or total disability, a participant may request to receive a cash distribution of his or her account.

Active participants may withdraw any part of their vested account resulting from elective deferral contributions in a single sum in the event of undue financial hardship. Such withdrawals shall be limited to the amount of the participant's deferral contributions.

Contribution Funding

The Company makes contributions to the Plan for participant and Company contributions on a bi-weekly basis.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note 2. Summary of Significant Accounting Policies (continued)

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Included in investment income for the year ended December 31, 2010 is $101,794 of interest earned on notes receivable from participants. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

As a result of the adoption of a new accounting pronouncement relating to participant loans in 2010, the Plan retrospectively classified participant loans as notes receivable from participants in the statements of net assets available for benefits and measured them at their unpaid principal balance plus any accrued interest.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Subsequent Events

Subsequent events have been evaluated through October 14, 2011, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Accounts

The Plan participates in a contract with Principal Life Insurance Company ("Principal") whereby the assets of the Plan are part of the general assets of Principal. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds.

Note 3. Insurance Contracts (continued)

The guarantees made with regard to the guaranteed interest account are supported by Principal Life Insurance Company's general account. The general account is invested mostly in private market bonds and other fixed income financial instruments. There are no reserves against contract value for credit risk of contract issuer or otherwise.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with this contract based on certain Plan level initiated transactions.

Pooled Separate Accounts

The Plan participates in a contract with Principal whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Principal holds these assets in trust for the participating plans.

Note 4. Investments

At December 31, 2010 and 2009, the following presents investments that represent 5% or more of the Plan's net assets:

	2010	**2009**

Note 4. Investments (continued)

During the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value, by investment type, as follows:

	Year Ended December 31, 2010
Guaranteed interest accounts	$ (12,257)
Mutual funds	1,471,864
Pooled separate accounts	4,521,840
	$ 5,981,447

Note 5. Information Certified by the Custodians

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company ("Principal") and the Delaware Charter Guarantee and Trust Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule:

c) Supplemental Schedule:

***Except for the notes receivable from participants, which are not certified by the custodians. The notes receivable from participants are participant loans allowed under the related regulations. They are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 6. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009:

Guaranteed interest accounts: These investments are part of the general assets of an insurance company. These investments are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Mutual funds: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Pooled separate accounts: These investments are public investment securities valued using the NAV provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Note 6. Fair Value Measurements (continued)

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2010 and 2009:

Net gains or losses (realized and unrealized)	(312,655)
Purchases	150,341
Issuances and settlements	(8,161)
Ending balance	$ 747,186

Note 7. Restricted Investment Fund

The Principal Life Insurance Company U.S. Property Separate Account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. On September 26, 2008, Principal applied a limitation which delays the payment of withdrawal requests from the U.S. Property Separate Account and provides for payment of such requests on a pro rata basis (a "Queue") as cash becomes available for distribution, as determined by Principal.

On December 31, 2010 Principal processed all pending transactions with the Plan and its participants that had been subject to the withdrawal limitations. However, the transactions requested on or after December 31, 2010 were still subject to the withdrawal limitations.

Effective March 24, 2011 Principal determined that current market conditions supported the removal of the withdrawal limitations. As a result, all transaction requests related to this fund were processed in accordance with Principal's standard procedures and all distribution requests that were pending due to the withdrawal limitations were processed with payments made at the close of business on March 25, 2011.

The contract provision which permitted the implementation of this withdrawal limitation allows the limitation to be applied again in the future if it is deemed to be in the best interest of investors.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would be 100% vested in their account balances.

Note 10. Tax Status

The Company has adopted a prototype non-standardized plan which obtained its latest opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan as adopted has been operated in accordance with the Plan document. Accordingly, no provision was made for federal income taxes in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

Note 11. Related Party Transactions

Certain Plan investments are shares of pooled separate accounts managed by Principal. The Plan also has investments in guaranteed interest accounts which are part of the general assets of Principal. Principal is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.
