Independent Auditors' Report

To the Plan Administrator of the
Herbalife International of America, Inc. Employees 401(k) Profit Sharing Plan

We were engaged to audit the statements of net assets available for benefits of the Herbalife International of America, Inc. Employees 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and the statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by The Principal Life Insurance Company and the Delaware Charter Guarantee and Trust Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the custodians as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following description of Herbalife International of America, Inc. Employees 401(k) Profit Sharing Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1985 to qualify as a defined contribution retirement plan for Herbalife International of America, Inc.'s (the "Company") eligible employees. The Plan was amended and restated effective October 1, 2009. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the "IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All employees of the Company are eligible to participate in the Plan after completing two months of service. There is no minimal age requirement to be a Plan participant. Entry dates are the first day of each quarter after the employee meets the eligibility requirements.

Contributions

Under the terms of the Plan, participants may make pre-tax elective deferral contributions from 2% up to 75% of their annual compensation subject to the limitations set forth by the IRC. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions.

The Company makes a qualified automatic contribution arrangement ("QACA") matching contribution which qualifies as a "safe harbor" contribution. For the year ended December 31, 2011 the Company made a QACA matching contribution of 100% of elective deferrals on the first 1% of deferred compensation and 50% of elective deferrals that exceed 1% of deferred compensation up to 6% of deferred compensation.

The Company may also make a "non safe harbor" matching contribution and a profit sharing contribution at the discretion of the Company.

The Plan allows participants to make rollover contributions from other qualified plans.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's qualified matching contributions, (b) the Company's discretionary contributions and (c) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of Company discretionary contributions are allocated to participants who are active participants on the last day of the Plan year. Company discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their elective contributions and earnings on such contributions. Vesting in the QACA matching contributions and related earnings is based on years of continuous service according to the following schedule:

Years of Service for Vesting	Percent Vested
Less than two years of service	0%
Two years or more of service	100%

Vesting in the employer discretionary contributions and related earnings is based on years of continuous service according to the following schedule:

Years of Service for Vesting	Percent Vested
Less than one year of service	0%
At least one but less than two years of service	20%
At least two but less than three years of service	40%
At least three but less than four years of service	60%
At least four years but less than five years of service	80%
Five years or more of service	100%

Safe Harbor Election

Effective January 1, 2003, the Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and investing schedules and meet the applicable "Safe Harbor" requirement. If the Plan meets the "Safe Harbor" requirements it is not subject to the ADP or ACP discrimination tests required by the IRC.

Note 1. Description of the Plan (continued)

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their employer matching contribution and earnings on such contributions are used to reduce the Company matching contributions. As of December 31, 2011 and 2010, there were approximately $166,200 and $211,400, of unallocated forfeited non-vested accounts that were available, respectively. Forfeitures of approximately $106,000 were used in 2012 to pay the employer matching contribution relating to the "true-up" provisions for the year ended December 31, 2011.

Payment of Benefits

Plan benefits are distributed in a lump sum upon the older of normal retirement age of 65 or up to five years after the first day of the Plan year in which his earliest Entry Date occurred, death or total disability prior to retirement. Upon termination of employment by reason other than retirement, death or total disability, a participant may request to receive a cash distribution of his or her account.

Active participants may withdraw any part of their vested account resulting from elective deferral contributions in a single sum in the event of undue financial hardship. Such withdrawals shall be limited to the amount of the participant's deferral contributions.

Contribution Funding

The Company makes contributions to the Plan for participant and Company contributions on a bi-weekly basis.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Note 2. Summary of Significant Accounting Policies (continued)

Valuation of Investments

All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Subsequent Events

Subsequent events have been evaluated through July 26, 2012, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Accounts

The Plan participates in a contract with Principal Life Insurance Company ("Principal") whereby the assets of the Plan are part of the general assets of Principal. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds.

Note 3. Insurance Contracts (continued)

The guarantees made with regard to the guaranteed interest account are supported by Principal Life Insurance Company's general account. The general account is invested mostly in private market bonds and other fixed income financial instruments. There are no reserves against contract value for credit risk of contract issuer or otherwise.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with this contract based on certain Plan level initiated transactions.

The interest crediting rate is determined semi-annually, and during 2011 resulted in an average annual yield earned and credited to participants of approximately 0.12%. The minimum crediting rate is 0.60%. The interest crediting rate is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account.

Pooled Separate Accounts

The Plan participates in a contract with Principal Life Insurance Company ("Principal") whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Principal holds these assets in trust for the participating plans.

Note 4. Investments

At December 31, 2011 and 2010, the following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2011	**2010**
Guaranteed interest accounts	$ 3,511,489	$ 3,516,023
Mutual funds		
EuroPacific Growth	$ 2,923,501	$ 3,384,068

Principal Lifetime 2040	$ 4,319,634	$ 3,262,224
Principal Large Cap Growth	$ 3,429,138	$ ---*

**This investment was not 5% of the Plan's net assets for the respective year end. It was added to the note for comparison purposes.*

Note 4. Investments (continued)

During the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value, by investment type, as follows:

	Year Ended December 31, 2011
Pooled separate accounts	$ (991,122)
Guaranteed interest accounts	22,023
Mutual funds	(611,176)
	$ (1,580,275)

Note 5. Information Certified by the Custodians

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company ("Principal") and the Delaware Charter Guarantee and Trust Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule:

a) Investments

	December 31,	
	2011	2010
Pooled separate accounts	$ 44,134,051	$ 37,961,500
Guaranteed interest accounts	$ 3,511,489	$ 3,516,023
Mutual Funds	$ 14,252,853	$ 15,244,976

Note 5. Information Certified by the Custodians (continued)

b) Investment income (loss)

	Year Ended December 31, 2011
Net depreciation in fair value of investments	$ (1,580,275)
Dividends and interest income	$ 149,189

c) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held At End of Year)**

***Except for the notes receivable from participants, which are not certified by the custodians. The notes receivable from participants are participant loans allowed under the related regulations. They are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 6. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2011 and 2010:

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Guaranteed interest accounts: These investments are part of the general assets of an insurance company. These investments are valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

Mutual funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (continued)

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2011 and 2010:

The Principal Life Insurance Company U.S. Property Separate Account invests mainly in commercial real estate and includes mortgage loans which are backed by the associated properties. On September 26, 2008, Principal applied a limitation which delays the payment of withdrawal requests from the U.S. Property Separate Account and provides for payment of such requests on a pro rata basis (a "Queue") as cash becomes available for distribution, as determined by Principal.

On December 31, 2011 Principal processed all pending transactions with the Plan and its participants that had been subject to the withdrawal limitations. However, the transactions requested on or after December 31, 2011 were still subject to the withdrawal limitations.

Effective March 24, 2011 Principal determined that current market conditions supported the removal of the withdrawal limitations. Therefore, all transaction requests related to this fund were processed in accordance with Principal's standard procedures and all distribution requests that were pending due to the withdrawal limitations were processed with payments made at the close of business on March 25, 2011. As a result, the Principal Life Insurance Company U.S. Property Separate Account was transferred out of level 3 to level 2 investments during the year ended December 31, 2011.

The contract provision which permitted the implementation of this withdrawal limitation allows the limitation to be applied again in the future if it is deemed to be in the best interest of investors.

The following table presents additional information relative to Plan investments reported on net asset value at December 31, 2011 and 2010.

(a) The investment seeks to provide a relatively high level of current income and long-term growth of income and capital. The fund normally invests at least 80% of its net assets in dividend-paying equity securities. It usually invests in equity securities of companies with large market capitalizations, but may also invest in equity securities of companies with medium market capitalizations. The fund invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued. It will also invest in real estate investment trusts and securities of foreign issuers.

(b) The investment option primarily invests in common stocks of large capitalization companies with strong earnings growth potential. It normally invests the majority of assets in companies with large market capitalizations at the time of purchase. Management places strong emphasis on companies it believes are guided by high quality management teams. It also attempts to identify those companies that are market leaders possessing the ability to control pricing and margins in their respective industries. It may invest up to 25% of assets in foreign securities.

(c) The investment option normally invests the majority of assets in common stocks of companies that compose the S&P 500 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 500 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P 500 Index.

(d) The investment option normally invests the majority of assets in common stocks of companies that compose the S&P MidCap 400 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P MidCap 400 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P MidCap 400 Index.

(e) The investment seeks long-term growth of capital. The fund invests at least 80% of its net assets in equity securities of companies with medium market capitalizations (those with market capitalizations similar to companies in the Russell Midcap(R) Growth Index) at the time of purchase. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average. The fund may actively trade portfolio securities.

Note 6. Fair Value Measurements (continued)

(f) The investment seeks long-term growth of capital and normally invests the majority of assets in common stocks of companies that compose the S&P SmallCap 600 Index. Management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 600 Index. Over the long-term, management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P 600 Index.

(g) The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets in equity securities of companies with small market capitalizations (those with market capitalizations equal to or smaller than the greater of: 1) $4.0 billion or 2) the highest market capitalization of the companies in the Russell 2000(R) Growth Index) at the time of purchase. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.

(h) The investment option normally invests the majority of assets in equities of companies in emerging market countries. It invests in securities of companies with their principal place of business or principal office in emerging market countries; companies for which the principal securities trade in an emerging market; or companies, regardless of where their securities are traded, that derive 50% of their total revenue from either goods or services produced in emerging market countries. The fund may invest in securities of companies with small to medium market capitalizations.

(i) The investment seeks long-term growth of capital by investing primarily in stocks of non-US companies with relatively small capitalizations. It invests in securities of companies with their principal place of business or principal office outside the US; companies for which the principal securities market is outside the US; or companies, regardless of where their securities are traded, that derive 50% of their total revenue outside of the US. Under normal market conditions, it invests at least 80% in companies similar in size to companies included in the Citigroup Extended Market Index World ex US.

(j) The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests in underlying PFI domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The fund invests in PFI Institutional Class shares of underlying funds. Within 10 to 15 years after its target year, the fund's underlying fund allocation is expected to match that of the Principal LifeTime Strategic Income Fund.

(k) The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests in underlying PFI domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The fund invests in PFI Institutional Class shares of underlying funds. Within 10 to 15 years after its target year, the fund's underlying fund allocation is expected to match that of the Principal LifeTime Strategic Income Fund.

(l) The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests in underlying PFI domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The fund invests in PFI Institutional Class shares of underlying funds. Within 10 to 15 years after its target year, the fund's underlying fund allocation is expected to match that of the Principal LifeTime Strategic Income Fund.

(m) The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests in underlying PFI domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The fund invests in PFI Institutional Class shares of underlying funds. Within 10 to 15 years after its target year, the fund's underlying fund allocation is expected to match that of the Principal LifeTime Strategic Income Fund.

(n) The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund." It invests in underlying PFI domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. The fund invests in PFI Institutional Class shares of underlying funds. Within 10 to 15 years after its target year, the fund's underlying fund allocation is expected to match that of the Principal LifeTime Strategic Income Fund.

(o) The investment seeks current income, and as a secondary objective, capital appreciation. The fund invests in underlying PFI domestic and foreign equity, real estate investments, and fixed-income funds according to an asset allocation strategy designed for investors primarily seeking current income and secondarily capital appreciation. Its asset allocation is designed for investors who are approximately 15 years beyond the normal retirement age of 65. The fund invests in PFI Institutional Class shares of underlying funds.

(p) The investment seeks current income, while preserving capital and liquidity. The fund invests exclusively in high-quality, short-term, U.S. dollar-denominated money market instruments of domestic and foreign issuers. It only purchases First Tier securities. These include, but are not limited to, bank obligations such as time deposits and certificates of deposit, government securities, asset-backed securities, commercial paper, corporate bonds, municipal securities and repurchase agreements. The fund may invest more than 25% of total assets in U.S. dollar-denominated obligations of U.S. banks.

(q) The investment option invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and US government and agency-backed securities. Value is added primarily through sector allocation and security selection. The Separate Account may enter into reverse repurchase agreements to attempt to enhance portfolio return and income.

Note 6. Fair Value Measurements (continued)

(r) The investment invests the majority of assets in commercial real estate holdings. It focuses on properties that return both lease income and appreciation of the buildings' marketable value. The property holdings usually contain real estate from multi-family, office, warehouse/manufacturing, and retail sectors. This investment option is subject to investment and liquidity risks inherent in real estate such as those associated with general and local economic conditions. A contractual limitation in the group annuity contract that provides access to this Separate Account may be implemented, which will allow management of this Separate Account, and satisfy withdrawal requests over time and fairly amongst all those who request a withdrawal.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would be 100% vested in their account balances.

Note 9. Tax Status

The Company has adopted a prototype non-standardized plan which obtained its latest opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan as adopted has been operated in accordance with the Plan document. Accordingly, no provision was made for federal income taxes in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

Note 10. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by Principal. The Plan also has investments in guaranteed interest accounts which are part of the general assets of Principal. Principal is the custodian as defined by the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions also qualify as party-in-interest transactions for which there is a statutory exemption.
