Independent Auditor's Report

To the Plan Administrator of the
Herbalife International of America, Inc. Employees 401 k Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Herbalife International of America, Inc. Employees 401 k Profit Sharing Plan, which are comprised of the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Life Insurance Company (the investment contract issuer) and the Delaware Charter Guarantee and Trust Company (an investment custodian); except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the investment contract issuer and the investment custodian hold the Plan's investment assets and execute investment transactions.

The plan administrator has obtained certifications from the investment contract issuer and the investment custodian as of December 31, 2013 and 2012 and for the year ended December 31, 2013, that the information provided to the plan administrator by the investment contract issuer and the investment custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the investment contract issuer and the investment custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Plan Description

The following description of Herbalife International of America, Inc. Employees 401(k) Profit Sharing Plan (the "Plan") is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1985 to qualify as a defined contribution retirement plan for Herbalife International of America, Inc.'s (the "Company" or "Employer") eligible employees. The Plan was amended effective October 1, 2009. The Plan has a pre-tax salary reduction provision as defined under Section 401(k) of the Internal Revenue Code (the "IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was restated effective January 1, 2013 as an existing plan qualifiable under 401(a) of the Internal Revenue Code.

Eligibility

All employees of the Company are eligible to participate in the Plan after completing two months of service. There is no minimal age requirement to be a Plan participant. Entry dates are the first day of each quarter after the employee meets the eligibility requirements.

Contributions

Under the terms of the Plan, participants may make pre-tax elective deferral contributions from 2% up to 75% of their annual compensation subject to the limitations set forth by the IRC. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants also have an option to designate all or any portion of their contributions to be withheld on an after tax basis as Roth elective deferral contributions.

The Company makes a qualified automatic contribution arrangement ("QACA") matching contribution which qualifies as a "safe harbor" contribution. For the year ended December 31, 2013 the Company made a QACA matching contribution of 100% of elective deferrals on the first 1% of deferred compensation and 50% of elective deferrals that exceed 1% of deferred compensation up to 6% of deferred compensation.

The Company may also make a "non safe harbor" matching contribution and a profit sharing contribution at the discretion of the Company.

The Plan allows participants to make rollover contributions from other qualified plans.

Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Note 1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's qualified matching contributions, (b) the Company's discretionary contributions and (c) Plan earnings less an allocation of investment and operating expenses charged to the Plan. Allocations of Company discretionary contributions are allocated to participants who are active participants on the last day of the Plan year. Company discretionary contributions are based upon the ratio that each eligible participant's compensation bears to the total compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their elective contributions and earnings on such contributions. Vesting in the QACA matching contributions and related earnings is based on years of continuous service according to the following schedule:

Years of Service for Vesting	Percent Vested
Less than two years of service	0%
Two years or more of service	100%

Vesting in the employer discretionary contributions and related earnings is based on years of continuous service according to the following schedule:

Years of Service for Vesting	Percent Vested
Less than one year of service	0%
At least one but less than two years of service	20%
At least two but less than three years of service	40%
At least three but less than four years of service	60%
At least four years but less than five years of service	80%
Five years or more of service	100%

Safe Harbor Election

Effective January 1, 2003, the Plan has elected to be a Safe Harbor Plan according to IRC regulations. Accordingly, the Plan must meet certain requirements relating to employer contributions and vesting schedules and meet the applicable "Safe Harbor" requirement. If the Plan meets the "Safe Harbor" requirements it is not subject to certain discrimination tests required by the IRC.

Note 1. Description of the Plan (continued)

Forfeitures

Amounts forfeited from terminating participants' non-vested portion of their employer matching contribution and earnings on such contributions may be used to reduce administrative expenses or used to reduce the Company matching contributions. As of December 31, 2013 and 2012, there were approximately $48,400 and $212,300, respectively, of unallocated forfeited non-vested accounts available. Forfeitures of approximately $65,000 were used in 2013 to pay the employer matching contribution relating to the "true-up" provisions for the year ended December 31, 2012 and approximately $160,000 of forfeitures were used to pay employer matching contributions relating to the year ended December 31, 2013. In addition, approximately $17,300 of forfeitures were used to pay administrative expenses for the year ended December 31, 2013.

Payment of Benefits

Plan benefits are distributed in a lump sum upon the older of normal retirement age of 65 or up to five years after the first day of the Plan year in which his earliest Entry Date occurred, death or total disability prior to retirement. Upon termination of employment by reason other than retirement, death or total disability, a participant may request to receive a cash distribution of his or her account.

Active participants may withdraw any part of their vested account resulting from elective deferral contributions in a single sum in the event of undue financial hardship. Such withdrawals shall be limited to the amount of the participant's deferral contributions.

Contribution Funding

The Company makes contributions to the Plan for participant and Company contributions on a bi-weekly basis concurrent with the related pay periods.

Plan Administrative Expenses

The Company provides or pays for certain accounting, legal, administrative and management services without charge to the Plan. Fees related to the administration of notes receivable from participants and certain fees related to distributions are charged directly to participant accounts and are included in administrative expenses. Additionally, plan recordkeeping fees that are not paid by forfeitures are charged directly to participant accounts. Investment related expenses are included in net appreciation of fair value of investments.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for benefits and the changes in those net assets.

Note 2. Summary of Significant Accounting Policies (continued)

The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The account of the fully benefit-responsive investment contract (Principal Stable Value Fund - common/collective trust fund) is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Union Bond and Trust Company.

The fair value of the investment contract at December 31, 2013 was $6,987,426. The contract value of the investment contract at December 31, 2013 was $6,945,134.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan trustees to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Valuation of Investments

All investments are carried at fair value or an approximation of fair value except for the fully benefit-responsive investment contract (Principal Stable Value Fund) which is based on the net asset value reported by the fund (this fund is adjusted and reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is accrued as earned.

Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and must be repaid at a fixed interest rate which is commensurate with local prevailing rates as determined by the Plan. Generally, loans must be repaid within five years, unless the loan was for the purchase of a principal residence. In this case, the repayment period may be extended. Principal and interest is paid ratably through payroll deductions. Delinquent or defaulted notes receivables from participants are written off as "deemed" distributions at the end of the quarter following the quarter in which the default occurs.

Note 2. Summary of Significant Accounting Policies (continued)

The Plan classifies participant loans as notes receivable from participants in the statements of net assets available for benefits and measures them at their unpaid principal balance plus any accrued interest.

Non-Distributed Benefits

The Plan does not accrue non-distributed benefits related to participants who have withdrawn from the Plan, but recognizes such benefits as a deduction from net assets in the period in which such benefits are paid.

Subsequent Events

Subsequent events have been evaluated through July 21, 2014, the date the financial statements were available for issuance.

Note 3. Insurance Contracts

Guaranteed Interest Accounts

The Plan participates in a contract with Principal Life Insurance Company ("Principal") whereby the assets of the Plan are part of the general assets of Principal. This contract is identified and accounted for as a guaranteed interest account. The guaranteed interest account provides guaranteed interest rates for specified periods of time as determined or allowed by the contract. The rate credited is the rate in effect on the day when each deposit is directed to the funds.

The guarantees made with regard to the guaranteed interest account are supported by Principal's general account. There are no reserves against contract value for credit risk of contract issuer or otherwise.

The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement), however, there are possible market value adjustments when funds are withdrawn prior to their maturity. There may be withdrawal restrictions associated with this contract based on certain Plan level initiated transactions.

Pooled Separate Accounts

The Plan participates in a contract with Principal whereby the assets of the Plan are pooled with those of other unrelated plans. The Plan owns units of participation in the fair value of the account's underlying assets. Principal holds these assets in trust for the participating plans.

Note 4. Investments

At December 31, 2013 and 2012, the following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2013	**2012**

**This investment was not 5% of the Plan's net assets for the respective year end. It was added to the note for comparison purposes.*

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value, by investment type, as follows:

	Year Ended December 31, 2013
Pooled separate accounts	$ 13,014,174
Guaranteed interest accounts	9,844
Mutual funds	3,858,894
Common/collective trust fund	11,251
	$ 16,894,163

Note 5. Information Certified by the Custodians

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal and the Delaware Charter Guarantee and Trust Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule:

a) Investments

	December 31,

b) Investment income

	Year Ended December 31, 2013
Net appreciation in fair value of investments	$ 16,894,163
Dividends and interest income	$ 150,611

c) Supplemental Schedule:
Schedule H, Line 4i – Schedule of Assets (Held At End of Year)*

**Except for the notes receivable from participants, which are not certified by the custodians. The notes receivable from participants are participant loans allowed under the related regulations. They are included as investments on the supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.*

Note 6. Fair Value Measurements

Fair value measurements are based on a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012:

Pooled separate accounts: These investments are public investment securities valued using the Net Asset Value ("NAV") provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

Guaranteed interest accounts: These investments are part of the general assets of an insurance company. These investments are valued by discounting the related cash flows based on the composite yield in effect, current yields for similar instruments with comparable durations considering the credit worthiness of the issuer, and the number of months until maturity.

Mutual funds: These investments are valued at the closing quoted market price reported on the active market on which the public investment securities are traded.

Note 6. Fair Value Measurements (continued)

Common/collective trust fund: This investment is an investment security valued using the NAV provided by the investment custodian. The NAV is quoted on a private market that is not active, however, the unit price is based on the underlying investments. A majority of the investments held by each fund are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy the investments held by the Plan as of December 31, 2013 and 2012:

The following presents additional information relative to Plan investments reported on net asset value at December 31, 2013 and 2012:

(a) Diversified Emerging Funds: Invest in at least 50% of stock assets in developing nations. Most funds divide their assets among 20 or more nations. Although, these tend to focus on the emerging markets of Asia and Latin American rather than those of the Middle East, Africa or Europe, all these funds have the potential for large price swings.

(b) Foreign Small Growth Funds: Invest in international stocks that are smaller and higher-priced than the market as a whole. Most of these funds divide their assets among a dozen or more developed markets, including Japan, Britain, France and Germany. These funds typically have less than 20% of assets invested in U.S. stocks.

(c) Retirement Income Funds: Invest in underlying Principal funds, domestic and foreign equity, real asset and alternative investments, and fixed-income funds according to an asset allocation strategy designed for investors primarily seeking current income and secondarily capital appreciation.

Note 6. Fair Value Measurements (continued)

(d) Target Date Funds: They provide a diversified exposure to stocks, bonds and cash for those investors who have a specific date in for retirement. These funds aim to provide investors with an optimal level of return and risk, based solely on the target date. Over time, management adjusts the allocation among asset classes to more conservative mixes as the target date approaches.

(e) Intermediate Term Bond Funds: They have average durations that are greater than 3.5 years and less than six years. Most of the funds rotate among a variety of sectors in the bond market, based upon which appear to offer better values. Whatever types of bonds they hold, these funds are less sensitive to interest rates, and therefore less volatile, than funds that have longer durations.

(f) Real Estate: Invest primarily in real-estate investment trusts (REITs) of various types. REIT's are companies that develop and manage real-estate properties. There are several different types of REIT's, including apartment, factory-outlet, healthcare, hotel, industrial, mortgage, office and shopping center REIT's. Some funds in this category also invest in real-estate operating companies.

(g) Mid-Cap Blend: Invest in stocks of various sizes and mixed characteristics, giving it a middle of the road profile. Most shy away from high-priced growth stocks, but aren't so price-conscious that they land in value territory.

(h) Small-Cap Blend: They favor firms at the smaller end of the market-capitalization range and are flexible in the types of small caps they buy. Some aim to own an array of value and growth stocks while others employ a discipline that leads to holdings with valuations and growth rates close to small cap averages.

(i) Large Blend: They have portfolios that are fairly representative of the overall stock market in both size, growth rates and price. They tend to invest across the spectrum of U.S. Industries and owing to their broad exposure, the funds returns are often similar to those of the S&P 500 Index.

(j) Money Market Fund: Invest primarily in short-term, high-grade fixed-income securities, and seek the highest level of income consistent with the preservation of capital.

(k) Mid-Cap Growth: Invest in stocks of all sizes, thus leading to a mid-cap profile, but others focus on midsize companies. Mid cap growth funds target firms that are projected to grow faster than other mid-cap stocks, therefore commanding relatively higher prices. Many of these stocks are found in the volatile technology, health-care and services sectors.

(l) Stable Value Fund: Provide a low-risk, moderate-yield investment. The fund is managed to earn a consistent level of return, while providing preservation of capital, high credit quality and liquidity to pay plan benefits.

Note 6 – Fair Value Measurements (continued)

The pooled separate account investment funds are subject to the redemption frequency of one transactions per thirty day period. There are no other redemption restrictions, redemption notice requirements, or unfunded commitments related to the pooled separate account investment funds as of December 31, 2013 and 2012.

The common/collective trust fund offered in the Plan is subject to a daily redemption frequency. The only other redemption restriction is the investment is subject to a deferral of redemption requests of up to twelve months, at the discretion of the Trustee. There are no redemption notice requirements or unfunded commitments as of December 31, 2013 and 2012.

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Year Ended December 31, 2013	Guaranteed Interest Accounts
Beginning balance	$ 3,512,969
Purchases	1,958,088
Net investment gains (losses)	3,413
Settlements	(1,848,120)
Ending balance	$ 3,626,350

Quantitative Information about Level 3 Fair Value Measurements

The fair value of the Guaranteed Interest Accounts is based on significant unobservable inputs, including the interest rates of the applicable investment contracts. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3:

December 31, 2013	Fair Value	Valuation Techniques	Unobservable Inputs	Range Of Inputs
Guaranteed interest accounts	$3,626,350	Discounted cash flow, See note (1)	Contractual interest rates	0.05% - 0.10%
			Applicable interest rate	0.61%
			Maturity dates	12/31/2013 to 12/31/2014

Note 6 – Fair Value Measurements (continued)

December 31, 2012	Fair Value	Valuation Techniques	Unobservable Inputs	Range Of Inputs
Guaranteed interest accounts	$3,512,969	Discounted cash flow, See note (1)	Contractual interest rates	0.05% - 0.17%
			Applicable interest rate	0.64%
			Maturity dates	12/31/2012 to 12/31/2014

(1) The fair value of the guaranteed interest accounts is determined as follows:

If the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value.

If the applicable interest rate is greater than the interest rate on the account, the fair market value is the contract value reduced by a percentage. The percentage is equal to:

1. The difference between the applicable interest rate and the interest rate on the account, multiplied by

2. The number of years (including fractional parts of a year) until the maturity date.

The issuing company has the right to change the basis of calculating the market value upon providing three months advance written notice. Any such change will only apply to those accounts set up after the effective date of such change.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would be 100% vested in their account balances.

Note 9. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and units in a common/collective trust fund managed by Principal. The Plan also has investments in guaranteed interest accounts which are part of the general assets of Principal and common stock for which the Principal is the issuer. Principal is a qualified insurance institution which holds some of the Plan's investment contracts.

Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. These fees are paid to the investment fund manager and may include certain revenue sharing fees that are paid to Principal, other investment custodians and investment advisors.

Additionally, as noted in Note 1 certain administrative expenses related to participant initiated transactions and certain recordkeeping fees are paid directly to Principal. The Plan also allows for the issuance of notes receivable to participants in accordance with the related regulations. These transactions qualify as party-in-interest for which there is a statutory exemption.

Note 10. Tax Status

The Company has adopted a prototype non-standardized plan which obtained its latest opinion letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan document, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Company believes that the Plan as adopted has been operated in accordance with the Plan document. Accordingly, no provision was made for federal income taxes in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's tax returns generally remain open for Federal tax audits for three years from the filing date.

Note 11. Reconciliation of Financial Statements To The Form 5500

The following is a reconciliation of net assets available for benefit per the financial statements to the Form 5500:

	December 31, 2013
Net assets available for benefits per the financial statements	$ 104,060,024
Add: Adjustment from fair value to contract value for fully benefit-responsive investments contracts	42,292
Net assets available for benefits per the Form 5500	$104,102,316

The following is a reconciliation of the net increase in net assets available per the financial statements to the Form 5500:
