8. Schedule glossary

Form	What it reports
Form 5500 / 5500-SF	Plan identity, sponsor, administrator/signers, participant counts, plan feature codes (8a pension / 8b welfare), funding (9a) and benefit (9b) arrangements, schedules attached. 5500-SF = small plans (<100 participants, generally).
Schedule A	Insurance contracts: carrier, EIN/NAIC, contract #, persons covered, policy dates, broker/agent commissions & fees (Part I), pension contract values (Part II), welfare premiums/charges (Part III).
Schedule C	Service providers paid >= $5,000: direct & indirect compensation, service codes; Part III terminated accountants/actuaries.
Schedule D	Interests in DFEs (CCTs, pooled separate accounts, master trusts, 103-12 IEs).
Schedule H / I	Financial statements (large / small plans): assets, contributions (employer vs participant), benefits paid, expenses, accountant opinion.
Schedule G / R / SB / MB	Non-exempt transactions & defaults / retirement plan info & 401(k) testing / single- & multi-employer DB actuarial.

9. Caveats

Self-reported filings, posted without DOL audit. 'Latest' datasets hold the latest filing per plan year; the newest dataset year is partial. Broker grouping uses name normalization + an alias list (form5500.config.BROKER_ALIASES / ~/.form5500/broker_aliases.txt) and can merge or split entities imperfectly. Schedule A excludes self-funded claims and ASO fees; employer-paid consulting fees outside the plan are not reported anywhere. Benefit categories are a heuristic classification of indicator flags/free text.
